The education technician will present established education programs and assist with program development for K-12 school and youth groups in outdoor park locations and at local schools. Such programs are place-based and multi-disciplinary, using science, humanities, arts and active outdoor experiences to engage learners and promote understanding of nationally significant park resources. The incumbent will conduct activities in collaboration with partner groups related to the implementation of Mississippi River Canoe mobile and other education programs within the MISS corridor, will stern large voyageur canoes, and teach paddling skills and safety practices. The incumbent is required to use specialized skill and judgment in applying knowledge of methods and techniques used in presenting standards-based education programs, working with teachers, and assisting in the development of interactive and/or digital educational resources.

Work for the National Park Service in Saint Paul, MN!

Mississippi National River and Recreation Area (MISS) is a partnership-based national park in Minnesota. MISS is an urban park encompassing a 72-mile, 54,000 acre urban corridor along the river. MISS coordinates education programming with several partner organizations including Mississippi Park Connection, Minnesota Department of Natural Resources, Minnesota Historical Society, Wilderness Inquiry, and the Science Museum of Minnesota. Education programs are often conducted on partner lands and with partner equipment and includes programming on paddleboats, canoes, on state park land, on Minneapolis and St Paul park land, in the classroom and virtually. The Education Technician serves in the interpretation and education division of the park and will work closely with several permanent staff members. The position reports to the MISS Education Specialist.

Park headquarters is located in downtown Saint Paul which is easily accessible by many Metro Transit routes including the Metro Green Line.
